# GP Info Packs

## Info Packs

There's no point reading through countless news articles or current affairs write-ups. Learn to filter what's important for your exam. Better still, Crucible has done it for you. Rest assured and study easy with our condensed GP Info Packs.

### ☒ **Chunks of Text and copy pasted articles**

Our Info Packs will never be guilty of such an act. We know the pain, hassle and utter time wastage of such GP material. As explained, Crucible has separated the wheat from the chaff.

### ☐ **Overarching Themes**

Each Info Pack contains a set of overarching themes. In essence, overarching themes are a condensation of the contentious issues in each GP topic, crafted to allow easy categorisation of questions, faster studying, and easier question spotting.

### ☐ **Key Arguments, Quotes, Substantive examples**

Key arguments present in each theme is clearly identified and persuasively argued in each Info Pack. Studying is made easier, with substantive examples listed out for each argument, and insightful quotes for each topic.

## Using the Info Pack

### **01. Read it**

Concise, targetted material makes reading easy and efficient.

### **02. Recall the themes**

Overarching themes help you quickly determine the content points of each question.

### **03. Remember examples**

An essay without substantive examples will never be persuasive.

## Environment

A topic of paramount importance. Heavily tested year on year, with some years having more direct questions, and in other years, with more nuanced requirements. A popular choice among students, due to its universality of arguments and seemingly easy examples.

Arguments and examples provided by students are often not expressed clearly enough, or written in sufficient detail. This Info Pack will fix that.

## Media

Another highly important topic. Heavily tested year on year, with a more recent shift towards the specific area of social media. A popular choice among students for its relatability in their personal lives as young adults.

Arguments and examples provided by students are often either shallow and trivial due to the use of personal examples and arguments. This Info Pack will fix that.

# Fee structure
